

Motorized Floorboards for your Harley-Davidson

*Brake and shifter arms
move with the boards!*

**RELAX and ENJOY your ride like
never before with ROAD RAILS®**

- Simulates a highway peg position.
- Allows for up to 10 inches of heel repositioning, with brake and shift levers maintaining their relationship with the boards.
- Available for the Harley-Davidson Touring Line 1996 to present.
- All Road Rail kits include Grip Switch™ actuator in black or chrome.
- Softail kit coming soon!

The brake
and shifter arm
travel with boards
throughout the range
of movement resulting in
uncompromised rider control.

This patented innovation allows the rider
to adjust their floorboards from the stock position
to a full forward control position or anywhere
in between with a push of the **Grip Switch™** button.
